Statement regarding the Toxic Substances Control Act (TSCA)

The U.S. Environmental Protection Agency (EPA) published a new rule under Section 6 of the Toxic Substances Control Act (TSCA) on 02.05.2021 to ban 5 PBT substances in products in the USA in the short term, subject to various exemptions.

The substances, which have been banned from import, processing/manufacturing, and sale in the USA since March 8, 2021, are:

Abbreviation	Chemical name	CAS No.
DecaBDE	Decabromodiphenyl ether	1163-19-5
PIP (3:1)	Phenol, isopropylated phosphate (3:1)	68937-41-7
2,4,6-TTBP	2,4,6-Tris(tert-butyl)phenol	732-26-3
HCBD	Hexachlorobutadiene	87-68-3
PCTB	Pentachlorothiophenol	133-49-3

As a manufacturer of cable and feed-through systems, measuring and control equipment and accessories for the product groups, we consider ourselves a classic downstream user. Jacob GmbH does not produce any raw materials or mixtures itself, but processes the procured materials into the final products.

Regarding compliance with the listed TSCA guidelines, we are in contact with our material suppliers and distribution partners, who assure us that all materials delivered to Jacob GmbH comply with the TSCA specifications.

Thus, according to our current knowledge, we can confirm that none of the listed substances are contained in our products or exceed the permissible concentrations.

Sincerely yours
Jacob GmbH
